Company

In today's conditions, being successful in projects across the country and abroad can only be achieved with the principles of employees, starting from the logic of being a highly corporate startup company that starts with each employee actively contributing to production and being rewarded as much as everyone expects.

With the principles of finding the right designs that meet the needs of our customers and producing the most suitable solutions, completing the job on time and error-free without compromising on quality under all circumstances, ensuring and improving the continuity of service quality, ensuring that the staff follows new technologies and constantly improves themselves, not deviating from the basic values while providing services, the sector We continue to work with well-known and reliable companies.

Akay project we would like to thank all the companies and company employees who started working with us and hope to work together for many more years.

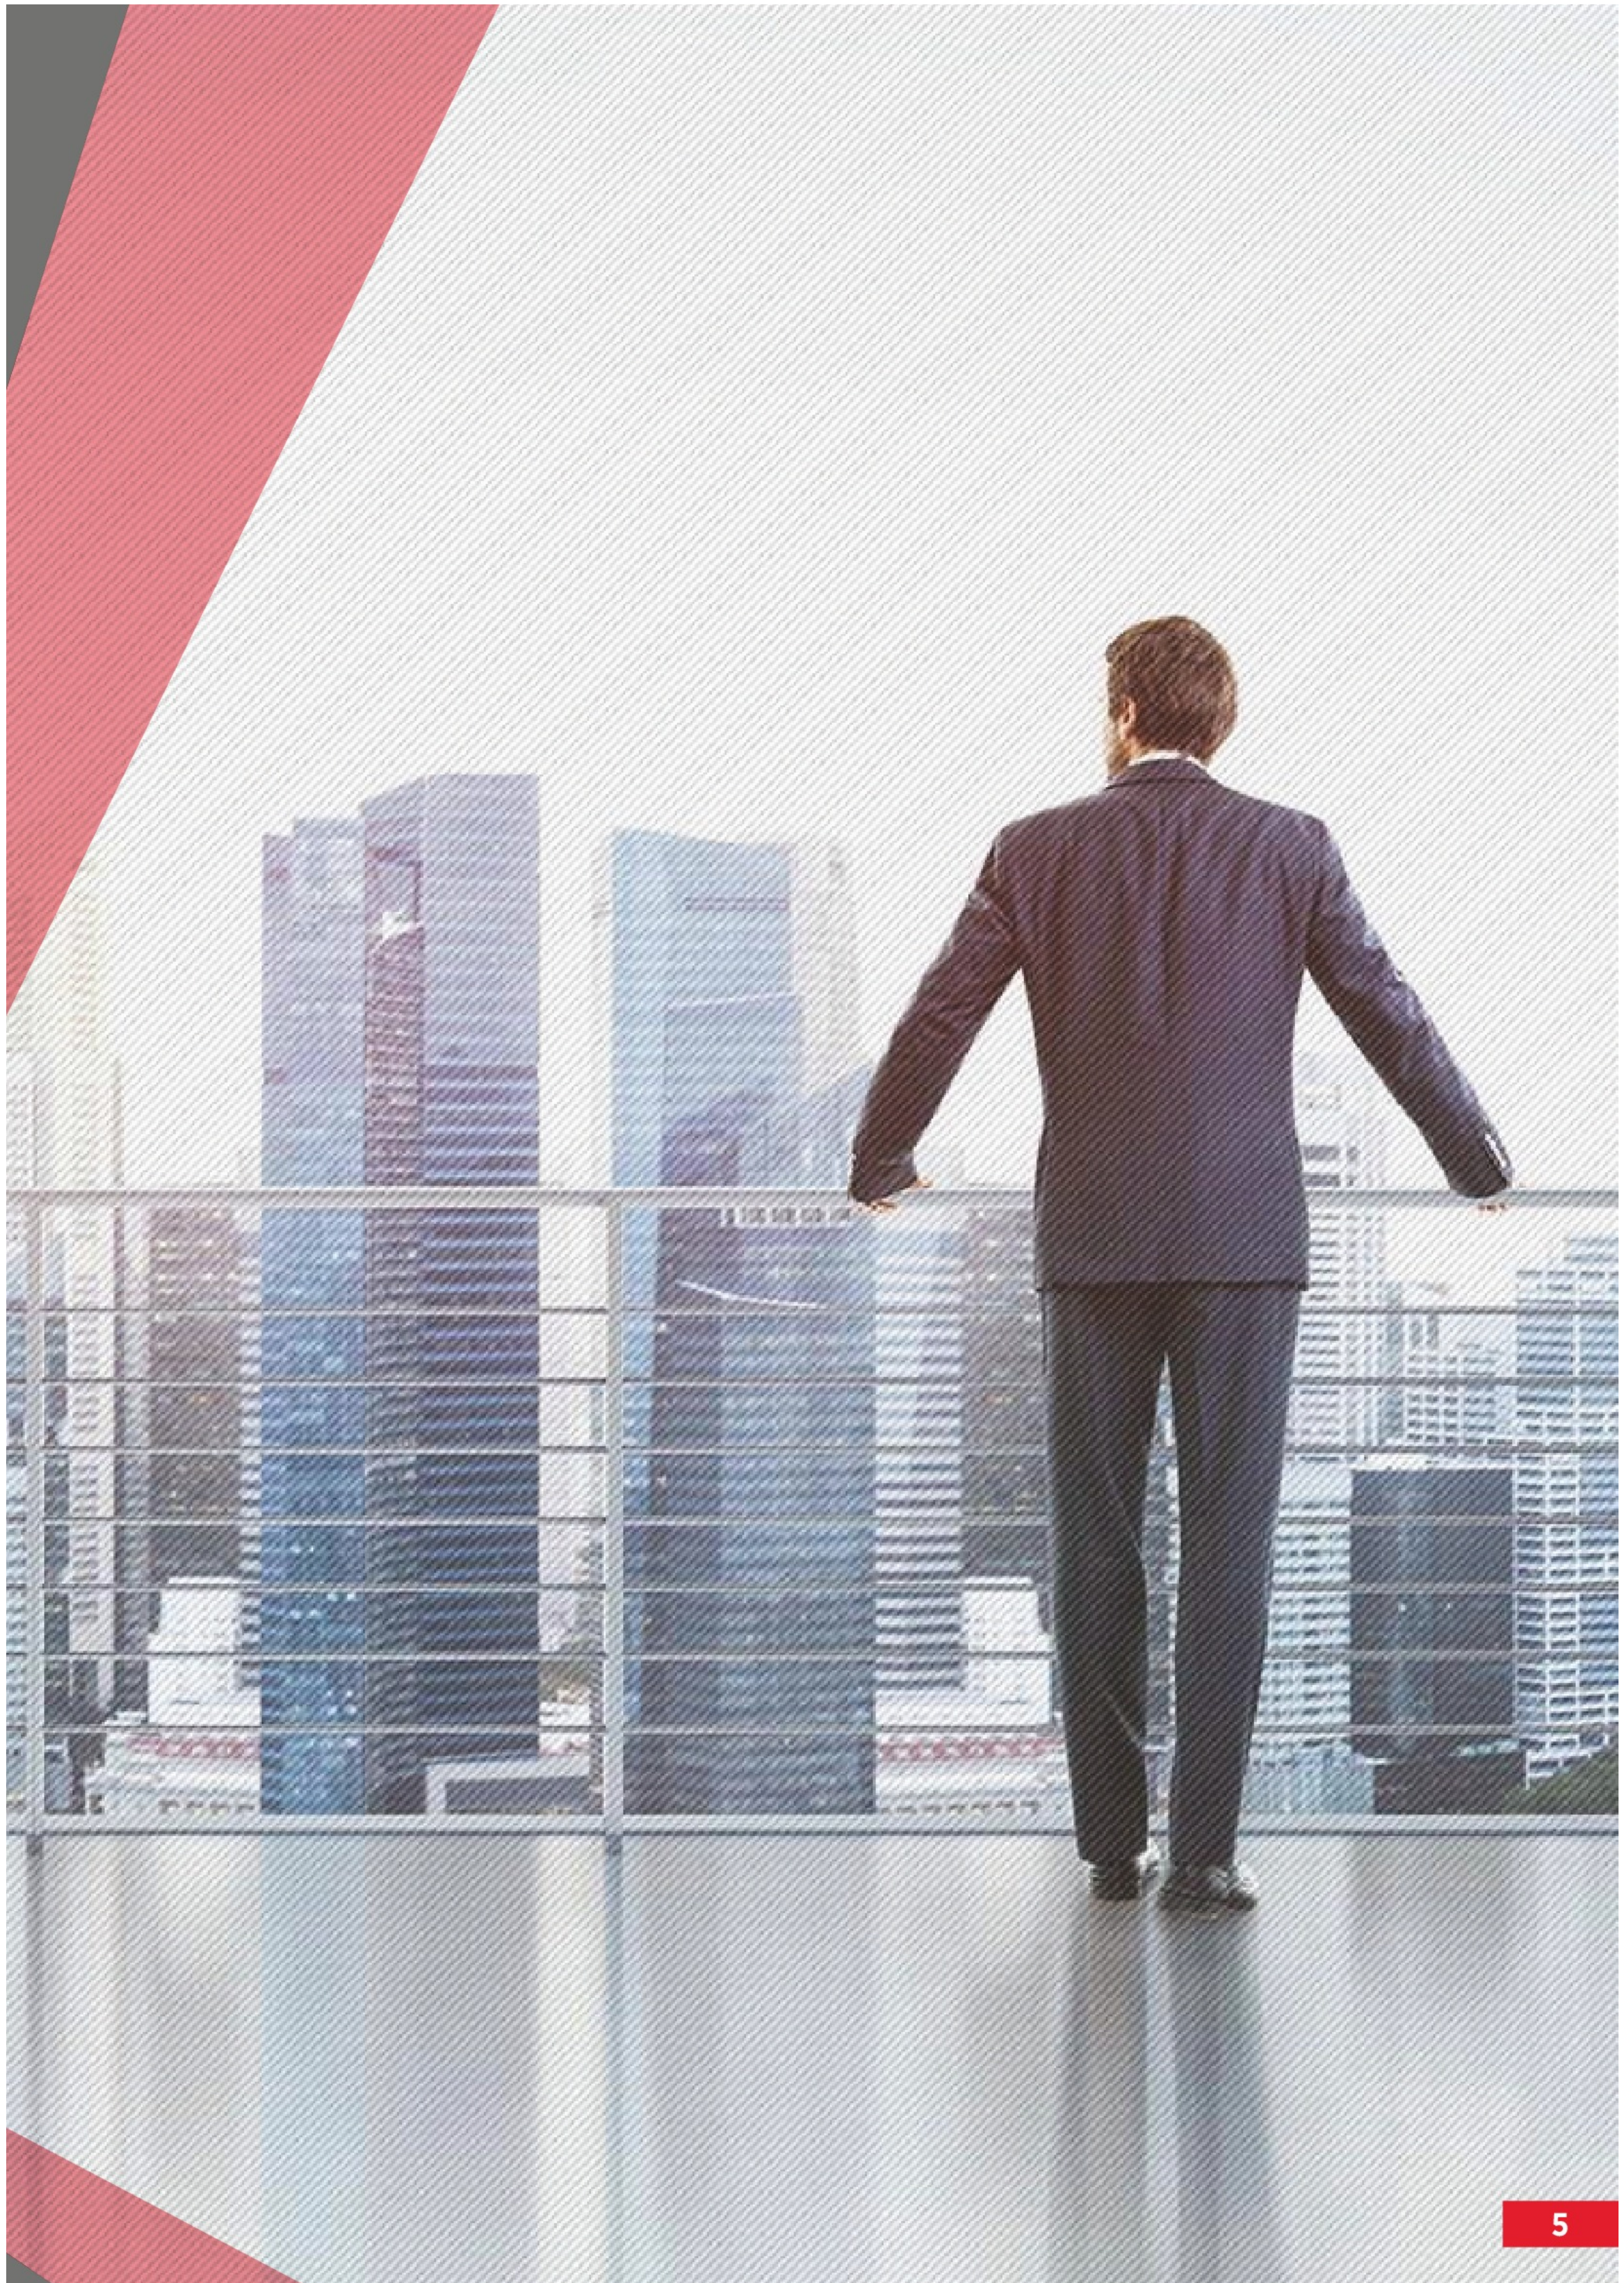

our vision

Our aim is to provide added value to the country's economy by adhering to international standards in the sector and ensuring the unconditional satisfaction of our customers and satisfaction and satisfaction with the working conditions of our employees in all the projects we undertake.

Our Mission

To provide our employers and investors with innovative, technical and commercial solutions and to carry out efficient projects that are delivered on time and at affordable cost, in accordance with technical standards.

Akay Project Engineering Architecture

Commitment

Akay offers contracting services in the production of public and private buildings with its project contracting experience.

Akay project management team specializes in managing the 4 basic processes of contracting service: pre-design process, design process, construction process, post-construction process. Feasibility, programming, design development, construction and delivery studies in these processes are carried out at technical standards.

In contracting works, as in other areas of activity, Akay Proje's qualified project management team strives to work in perfect harmony with the employer's technical team and to fulfill its responsibilities within the scope of the contract perfectly.
